16. Shri Akshay Patel, Schoolnet India Ltd.
17. Shri Prashant Sood, Schoolnet India Ltd.
18. Shri Sunny Mittal, Schoolnet India Ltd.

The meeting was opened for discussion with participating bidders, the record of discussions is given as follows:

#	Participant's Name	Submission	Committees' Response
1	Mr. Subhasis Bhattacharya from M/s Denver Hydromatics Pvt Ltd	The operating license is initially to be obtained in the name of IDA since they are the primary employer and later it can be transferred to BIADA.	Noted, and same shall be followed. The condition 1(a) under Section 11 - (Other terms & conditions), shall be modified as under: <i>"IDA shall obtain the license to operate the Facility in terms of the Atomic Energy (Radiation Protection) Rules, 2004, which shall be transferred to BIADA in due course and a copy of the same shall be provided to the O&M Agency."</i>
		The Contract period and the commencement of payment of rentals should start only upon receipt of statutory	It is already mentioned that the contract period shall commence only after all approvals and

#	Participant's Name	Submission	Committees' Response
3	Mr. Vikash Kumar from M/s Jitban Supply Chain Pvt Ltd	Additional grants are available for deploying green energy/solar-powered plants, however, the owner of the facility will be the beneficiary. In case of applicant is a Government body the subsidy rate is much higher. So, IDA/BIADA should allow the agency to claim the benefit of subsidy for any investment made by the agency in solar energy, and also other benefits under the industrial policy like power tariff rebate, etc.	Authority shall have no objection to the applicant applying for state policy incentives and shall provide NOC to the agency as and when required, as it is part of the normal industry-friendly policy of the State Govt. There is no need to change in the RFP
		In order to encourage start-ups and MSMEs the criteria for Net Worth may be removed.	No further relaxation can be granted
		BG amount of Rs 1 crore may be reduced to facilitate wider MSME participation.	No relaxation can be granted
4	Mr. K.C. Chawla from M/s Aligned Industries	What is the connected power load for the irradiation plant and cold storage?	Clarified that it is a 2000 KVA load, deemed sufficient for facility use.
		Scope for enhancing the utilities in the packhouse	Please refer to Clause No. 7 (Scope of work) (C) Modification to the facility
5	Mr. Gajender Rathore, M/s Akshar Gamma Sterile LLP	Requested department for enabling potential O&M agency to tap the upcoming season of mango & litchi	All efforts are being made to hand over the plant by March 2024 to the selected agency and the process of obtaining the license and source loading for irradiation facility will be expedited.

The department informed bidders about an upcoming workshop with Distributors / Producers / Farmers / Exporters to be held at the site and requested their participation in networking with other stakeholders.
